Main Specification

Item	Parameter
01. Lens structure	Using full glass composition
02. Sensor	American high-definition SENSOR
03. Night vision illumination	<0.3Lux
04. Video resolution	1920X1080P 30FPS/1280X720P 60FPS/WVGA 848X480 60FPS/VGA 640X480 60FPS
05. Video file format	(H.264 compression) MOV
06. Storage medium	Micro SD/MMC (maximum support to 32GB SDHC)
07. Video length	8GB SD card:1080P/78min 720P/130min
08. Motion detection	Within 3.5 meters of the trigger recording.
09. The LCD screen	1.5,TFT LCD
10. Lithium battery	210mAh
11. Storage temperature	-10C ~70C
12. Working environment temperature	-10C ~50C
13. Working environment humidity	15~85%RH

Package List

Attention:

- 1. Picture may be slightly different from the actual product.
- 2. According to the product configuration you choose different, parts may be added, refer to the actual product.

Product features

✓ 1080P Full HD TV image

Full HD video solutions with all glass lens, the video resolution up to 1920x1080P30FPS.

✓ High pixel clear all glass lens

A high-definition image sensor, with professional and high pixel camera, the 130 degree wide angle view the video without blind area, made the day clear images, vivid color, also can make the license plate is visible even at night.

✓ No lose any seconds recording

Save video file, do not miss any important information, truly seamless loop video.

✓ Motion detection range of 3.5 meters

Switch on motion detection function, in the range of 3.5 meters away from moving target all and lighting changing, can trigger automatic video.

√ 1.5 inch LCD screen

1.5 "high resolution LCD display (960X240), convenient for video, photographs and other settings.

✓ (WDR) wide dynamic function

Cars driving in the dark over the environment, uniform light, dim objects in the environment is still clearly visible.

✓ Low night vision illumination

The vehicle in the condition of weak light can be seen around the object.

✓ 8 times fast forward rewind playback mode

2 times, 4 times, 8 times the playback speed of fast forward and rewind, and back, in order to quickly search and browse video, and can slide way play photos.

✓ 9 lattice image preview

Enter play mode, video files and photos can be divided by 9 lattice preview of the selected file and convenient.

✓ H.264 decoding compression

High data compression ratio of mainstream, saving storage space and ensures the image data of high quality and smooth, H.264 format is more superior than the ordinary decompression format, more advanced, more save the memory card space.

Recycle video recording function

Save the file length of 1 minutes, 2 minutes, 3 minutes, automatically delete old files when the memory card is full, save the new file.

Product features

▼ The G-SENSOR function

The system has three axial gravity sensor, when the collision or subject to strong vibration, system will lock the current video files and save. The storage card can allocate 50% of capacity for the storage of G documents.

✓ The real-time output HDMI

Full high definition 1920X1080P30FPS HD MI signal output, can be video, photos and video broadcast directly in the HD terminal.

✓ MOV video format

Save the file in MOV format, suitable for the majority of PC and portable media player to preview.

✓ Parking Mode function:

ACC off the parking mode is on, motion detection and G-sensor is trigger. Once the camera detects the picture movement within 3.5 meters or the car is vibration, the record is start.

✓ USB2.0 data transmission

High speed USB interface, convenient connection with the computer, file copy, move, delete operation.

✓ A variety of video start mode

Manual button, car charger for electric start, motion detection trigger, G-sensor trigger start etc..

✓ Delay shutdown function

Set the delay shutdown time, car charger after pulled out, the machine will automatically shutdown time delay, set: 5 mins and closed.

✓ Low battery alarm function

When the battery power is low, the system will alarm, and shut down the system.

✓ The AV-OUT function

Video output to other screen or DVD host.

✓ The built-in speaker

Built-in AC-3 speaker, for file playback, touch sound, video state reminding, photo electricity remind state reminding, etc....

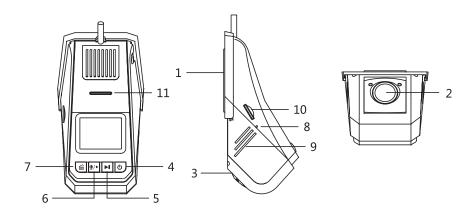

✓ Multi language support

Supports English, German, French, Korean, Russian, Portuguese, Chinese simplified, Chinese traditional, Japanese, spanish.

✓ Low power consumption

The low power consumption, when standby small current, can work for a long time, can meet the green environmental protection standards.
