MS-CRGBWRC

CRGBW LED LIGHTING

WIRELESS REMOTE CONTROL AND LIGHTING CONTROL MODULE

CRGBW LED LIGHTING WIRELESS REMOTE CONTROL

PRODUCT OVERVIEW

EXPERIENCE PREMIUM COLORS WITH CRGBW

The new **MS-CRGBWRC** wireless remote allows users to enjoy full control of the illumination options and functions of their Fusion CRGBW speakers and subwoofers. For total convenience, the remote is portable and able to function up to 10 meters from the speaker lighting control module, giving users control of the illumination right from their fingertips.

CONTROL THE LED ILLUMINATION OF FUSION SPEAKERS AND SUBWOOFERS

Enhance the onboard audio entertainment experience with the ability to adjust the lighting of the user's Fusion CRGBW speakers and subwoofers. Simply select the desired color, brightness, speed and mode to set the mood or match their Fusion speaker and subwoofer LEDs to the music, taking the entertainment experience to the next level.

UNPRECEDENTED COLOR OPTIONS

An industry-first for marine speakers and subwoofers, users can combine RGB with **Cool White** or **Warm White** with the press of a button to produce an unprecedented spectrum of colors, with Cool White RGBs, Warm White RGBs and standard RGB.

STATIC AND DYNAMIC COLOR OPTIONS

A range of colors is available in both static and dynamic modes with the user's Fusion CRGBW speakers and subwoofers to complement their music and enhance their onboard audio entertainment experience. Select the desired color using the color select wheel, or change to a mode that automatically cycles through 25 preconfigured lighting patterns. Brightness and pattern cycle speed can be independently adjusted to suit the user's preferences.

INTUITIVE TOUCH CONTROL

The MS-CRGBWRC wireless remote features easy-to-use touch controls and includes an intuitive color select wheel to easily change the lighting on the user's Fusion CRGBW speakers and subwoofers.

MS-CRGBWRC PRICING

Product	Description	MSRP (USD)	MSRP (CAD)
