- Video-input RCA connector
- Connector cable approx. 7m
- Fuse 2A

## Camera-configuration

(Cut green cable loop if required)

### With guide lines

### Without guide lines

**In case the isolation of the camera is harmed in the moisture section close to the camera, it is mandatory to repair the isolation. Otherwise the camera will inevitably become moist inside sooner or later.**

**Camera not suitable for permanent operation!**

## Tip for dealers:

Inform your end customers that the rear-view camera mustn't be cleaned by steam cleaner!

Made in China

## Connection scheme: reversing signal by reversing light

**Note:** If the camera is powered by reverse signal we recommend to install a relay between power supply of reverse signal and power supply of the camera to ensure a stable and uninterrupted power supply and avoid unwanted errors in the board computer.

## Connection scheme: reversing signal generated by a interface
